

Bring Your Own Device

As part of the BYOD Program, we ask that all 6th- 12th grade students bring a personal device to school each day. The student will be responsible for the device's maintenance, including keeping it updated, clean and accounted for in school.

Below are a basic system options for the BYOD Program:

Microsoft Surface or Laptop operating ver. 10 of Windows

Apple Laptop OSX (Catalina or higher)

*IPads and Chromebooks do not currently meet our requirements. We do provide Chromebooks for emergency situations to be checked out during the day and returned by 4pm for students who need them.

Please meet these basic Hardware Requirements:

- Intel I5 or better
- 4GB RAM
- At least 250GB HD space
- Antivirus of some type (Avast! Is a good free option)

SRDS Provides access to the entire Google Apps for Education suite (Docs, Sheets, Drive, etc.) through our school email platform.

Any questions regarding devices can be directed to tech@saddleriverday.org!
